The National Highway Traffic Safety Administration's Rating System for Rollover Resistance National Research Council (U.S.). Committee for the Study of a Motor Vehicle Rollover Rating System 2002 Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control.
